Vermont

This list is designed to interest our customers in Fall Planting, not only of the Bulbs and other plants that must be set at this time, but also in many things that may be safely put out, and the advantages to be gained by doing so.

Fall plantings enable the gardener to obtain the finest plants, and to do his work when every condition is of the best. The extra amount of winter care needed is offset by the extra growth gained the following season.

We find that if suitably protected almost anything may be planted in the Fall, with comparative safety. The plants named in the following pages are only those of this class.

We guarantee all plants to be true to name and to reach you safely. When received in good condition, our responsibility ends, and in no case will we be responsible for more than the value of the plants.

Remittance can best be made by Postal Money Order on Shelburne, Vt. Personal checks are acceptable. Either should be made payable to Gardenside Nurseries, Inc.

A FEW ESPECIALLY FINE THINGS FOR FALL PLANTING

ACONITUM

We have a moderate stock of a number of these fine garden plants. This includes the varieties **napellus,** a fine dark blue, flowering through July and August; **napellus bicolor,** an attractive blue and white form of the preceding; **autumnale,** very dark blue with glossy foliage, flowering quite late, and **fischeri,** dwarf, with pale blue flowers, also late.
Aconitum napellus, 35c each; $3 per 10; $25 per 100
Other varieties at 50c each

Anchusa

This is the variety myosotideflora, or Forgetmenot flowering Alkanet. A gem for the rockery, and fine if massed in the garden, growing 18 inches tall, and never becoming coarse as do the common sorts. Dainty blue flower sprays, and good foliage. Fine throughout the season. Locate it to protect against the cold spring winds. 50c each, $4.50 per 10

Astilbe

This family of plants, though called Herbaceous Spireas, is really akin to the Saxifrages. It is well known as a pot plant at Easter, but does equally well in the garden. Absolutely hardy, they may be set in late Fall, and we regard that as the best time.
50c each, $4.50 per 10

Gloria, fine pink.
Juno, deep violet-rose.
Kriemhilde, salmon-rose.
Queen Alexandra, light rose-pink.
Rose Perle, shell-pink.

Campanula

We have a small stock of a new species, known as C. lauri. The English sponsor of this plant cannot vouch for its correct name. It is similar to rotundifolia, but the flowers turn upward instead of drooping. Color is lavender, and the blooms about one inch across. Easy culture.
75c each, $6 per 10, fine plants

Delphinium

Delphinium or Larkspur are among the most popular garden flowers today.

Among all the strains of choice hybrids offered today, our "Shelburne Strain" is unique. It is, in fact, a mixture of every choice kind on the market. Rather than choose one and call it best, we bought seed of all the best.

All the plants offered have flowered and many were very fine indeed. At the price we ask, no one should be without a few clumps of this beautiful plant, excelled by no other garden flower.

Strong 2-year clumps, 35c each; $3.00 per 10

Dieletra

The Dieletra or Bleeding Heart we offer is the true sort, not any of the small varieties. Many customers inquired about this last season. Ours are young plants, vigorous and clean. You will be delighted with them. They never fail to give fine arching sprays of pink and white flowers the first season.
35c each; $3.00 per 10; $25.00 per 100

Eremurus

Last season we cataloged these and sold many. A number have written in to tell us how fine they were. If care is taken to plant on very well-drained soil, there should be no loss. Planting of these must be done in August or later, and they will be shipped as soon as dormant. To those unfamiliar with these plants, it may seem the value is not in them, but after one has seen the tall spikes of bloom, six feet high, with the flower head two feet long, there is no longer a doubt. We offer the same list as last year, and have dropped the prices on a few sorts.

	each
Bungei, citron yellow, 3-4 feet	$6.00
Elwesianus, very vigorous, pink, extra strong plants	8.00
Himalayicus, white, one of the best, hardy and vigorous	4.00
Robustus, ten feet when established, rosy pink, hardy	6.00
Shelford, hybrid form, coppery yellow in color, a noble plant	12.00
Tubergenii, pale yellow, earliest of all, will need protection against late frosts	12.00
Warei, tall, with coppery pink and bronze flowers, rare	15.00

Helleborus

Helleborus niger is the Christmas Rose, which will flower during a warm spell in Winter. Flowers white. The stock is limited. $1.50 each

Hesperis

Hesperis nivea is a much finer plant than the common Sweet Rocket. It is compact in growth, pure white in color, perfectly hardy, and is a fine plant in its color, at a season when white is scarce, in June. 35c each; $3.00 per 10

IRIS

Everyone knows that Iris are best set in July. And everyone has had lists of varieties feet long. We make no startling claims. Ours are good plants, and our prices are moderate. If you are buying Iris, buy from us when you buy other plants. Or buy Iris of us, and buy other plants. You'll be pleased either way. **Ten per cent discount on ten or more of one kind.**

Ambassador, late. Wonderful tall purple and maroon. One of the very best.	$1.00 each
Caprice, still one of the best reds.	25c each
Dr. Bernice, coppery bronze and crimson.	25c each
Her Majesty, a fine old "Pink" variety.	25c each
Lent A. Williamson, the most popular variety in the country today, blue violet and purple.	50c each
Mme. Chereau, delicately beautiful; white, penciled blue edges.	25c each
Pallida dalmatica, vigorous, lasting foliage, exquisite lavender blue.	25c each

Pauline, tall, rich pansy-violet. 25c each
Powhatan, light violet and deep purple. 25c each
Quaker Lady, odd buff or smoky grey shades. 25c each
Red Cloud, rosy lavender and crimson maroon. 50c each
Violacea grandiflora, violet self, very vigorous. 25c each
Windham, soft lavender pink, falls darker. 25c each
Wyomissing, creamy white, overspread soft rose. Falls deep rose, fading to flesh, one of the most beautiful Iris. 25c each

We have an extra amount of the variety **pallida dalmatica,** than which, in both foliage and flower there is no better Iris. We offer strong plants of this variety for mass planting at $10.00 per 100, not less than 100 at this price.

LILIUM

Among the Lilies that can be grown in the average garden, none is now so popular as **regale.** In fact it is the one lily that can be grown in every garden. We sold a lot of these last Spring at our popular price, and for Fall we are lowering the price still more. They are safely set at this time, if well protected, and we urge you to plant a lot of them throughout your borders. Strong flowering bulbs, 30c each; $2.50 per 10; $22.50 per 100.

The **Candidum** or **Madonna** Lily probably is next to the Regal in the quantity planted. It is known under many and various names, but its white flowers in July are unmistakable. Used with any Delphinium it is fine, but we like it best with the light blue belladonna. Be sure not to plant it too deep, three inches is enough. Large bulbs of the thick petaled type, 40c each; $3.50 per 10

The **Nankeen Lily (testaceum)** is a hybrid of the Madonna, and has similar foliage and habits. The color of the bloom is a straw yellow, impossible to describe, and we consider it one of the finest lilies. Good bulbs of our own growing at $2.50 each.

Sargent's Lily (L. sargentiae) was named for Dr. Sargent, so long head of the Arnold Arboretum. It is a fine thing when established, being much on the habit of regale, though later. It does not grow as readily as that popular variety, but is very dependable here.

Good bulbs, $1.00 each.

The **Goldbanded,** or **Auratum, Lily** is so showy that even though it often fails to last more than a few years, one must have it. We have some good bulbs now in our fields that will be available for October delivery at 50c each, $4.00 per 10.

Two lilies are native to this section, the **Meadow** or **canadense,** and the **Woods** or **philadelphicum.** Neither of these succeeds as well as the above in the flower border, but they are readily naturalized. The common names of these lilies tell their habitat, and a clump of the first beside a fence, or path where the grass grows tall, is well worth while. The Woods lily prefers a partially shaded spot, in light undergrowth, and on well-drained soils, though it is sometimes found in full sunlight on sandy soils. Its bright red cups, held upright, are a feature of the July woods. Collected bulbs of either, 20c each; $1.50 per 10; $10.00 per 100.

MERTENSIA

Our most beautiful, early flowering, native American plant, is **Mertensia virginica.** We like to plant it among Japanese Iris, where it does well, and blossoms and is out of the way, before its neighbor blooms. The charm of its bluish foliage, with the pink (fading to blue) bells pendant above it, is indescribable. We have some fine strong roots.

25c each; $2.00 per 10

PEONIES

Our list of Peonies is complete as to colors and they are arranged to cover the entire peony season, the earliest being first in each color. By a careful selection, succession of flowering for a month may be had. Do not plant too deep, an inch over the bud is enough. Our plants are a size, one year old after division.

White

Officinalis alba, the white Decoration Day Peony. $1.00 each
Duchess de Nemours, fine early white. 75c each
Festiva maxima, the standard white. 75c each
Albatre, similar to and better than the preceding variety. Later. $1.00 each
Baroness Schroeder, a beautiful cup shaped, immense bloom. June rose fragrance. $1.50 each
Marie Lemoine, the latest white. Extra choice. $1.00 each

Light Pink or Flesh

Officinalis rosea, the light pink form of the Decoration Day Peony. $1.00 each
Eugenie Verdier, pale hydrangea pink. $1.50 each
Marguerite Gerard, pink almost white. $1.50 each
Mme. Emile Galle, shell pink. One of the most ethereally beautiful peonies. $1.50 each
Claire DuBois, clear satiny pink. $1.50 each
Albert Crousse, fine large double bloom. $1.50 each

Dark Pink or Rose

Edulis superba, an old standby, and about the first to bloom. Rose pink. 75c each
Mons. Jules Elie, the King of Peonies. $1.50 each
Triomphe de l'Exposition de Lille, large, very double, light with darker shadings. $1.00 each
Mme. Ducel, resembles M. Jules Elie, but later. $1.00 each

The Latest Pink

Dorchester. $1.00 each

Red

Officinalis rubra, the old-fashioned "Piney," very early. $1.00 each
Karl Rosenfeld, large flower, plant vigorous. $1.50 each
Mary Brand, in our estimation the best red. Lasts exceedingly well. $3.00 each
Felix Crousse, the standard red. $1.00 each
Louis Van Houtte, very deep color. 75c each

Tree Peonies are very scarce and hard to obtain. We can offer one sort **Lavender Gem,** deep lavender-pink flowers with showy yellow stamens. $5.00 each

PHLOX

In recent years a lot of new Phlox have been offered, the most of them being of European origin. We have grown many kinds, and have other phlox listed in this catalog. But of the newer varieties, we believe the following the best, and well worth a trial. All at 50c each, $3.50 per 10.

Camillo Schneider. Brilliant scarlet red, showing no tendency to fade. Medium height. Undoubtedly the best in this color.

Mia Ruys. This is a very dwarf Phlox, usually about 15 inches tall. It is remarkable, however, for the color, which is different from all other white kinds. Fine for low grouping.

Milly. The best soft pink, without an eye. Strong erect growth.

Mrs. Scholten. A vivid salmon-red, conspicuous among other Phloxes. The pyramidal trusses are of enormous size.

All Phlox are set with perfect safety in the Fall.

PRIMULA

We have a new Primula known as **florindae,** which in strength of growth surpasses anything we have ever grown in this family. Capt. Kingdon Ward found it in Central Asia, and it is described as of the **sikkimensis** type. 3-4 feet high, carrying from June to late August, 60-80 fragrant, bright yellow, pendant flowers, at the top of the stem. Our plants will not flower this season, but they grow in heavy moist soil with the abandon of a Marsh Marigold. Strong plants, 75c each; $6.00 per 10.

Another good primula for a rockery is **capitata.** We have some good plants of this at 50c each.

TRILLIUM

There are several varieties of **Wake Robin** or **Woods Lily** native here. Only one, however, is worthy of extensive planting, for its size, beauty and easiness of culture. It will grow almost anywhere, if given a little shade, and some leaf mold soil, or even if leaves are left on its bed. This is the large white sort known as **grandiflorum.** We have a large stock of this plant and are making an attractive price on it to encourage its planting. It may be put under all shrubbery, where it will do well, and is very fine set with Daphnes, on the north of buildings. Strong roots, 10c each; $7.50 per 100; $50.00 per 1000.

VIOLA

Viola Jersey Gem continues one of the most popular hardy plants ever grown. Its masses of blue-violet flowers attract everyone. We have for Fall delivery only some fine field plants at a very low price. 20c each; $1.50 per 10; $12.50 per 100; $100.00 per 1000.

HARDY PERENNIAL PLANTS

All at 25c each, $2.00 per 10, unless otherwise noted. As a special inducement to Fall planting, we offer either one bulb of Lilium regale, or one plant of Bleeding Heart free with every order of $5.00 or more. Please state choice.

Aquilegia caerulea, the blue and white Colorado Columbine. Long spurred.

A.—Long Spurred Hybrids, varied colors of great beauty.

Artemisia lactiflora, a Fall bloomer, tall, with long foamy spikes of fragrant white flowers.

Campanula carpatica, blue or white, grows six inches high. Fine for edging.

Convallaria majalis, Lily of the Valley. Small clumps at this price. Nursery grown.

Delphinium belladonna, light blue Larkspur.

D.—bellamosa, dark blue form of the preceding. Not subject to disease.

D.—chinensis, blue or white. Not so tall as the rest. Almost perpetual blooming.

Dianthus plumarius, Hardy Garden Pinks, in a large range of colors.

Doronicum caucasicum, Leopards Bane. A fine early yellow flowered plant for the garden. Three feet.

Echinops ritro, globe thistle, ornamental.

Gypsophila paniculata flore pleno, true double form of the perennial Baby's Breath, 50c each.

G.—Bristol Fairy, a great advance over the preceding variety. Continuous in bloom, and much larger and fuller flowers $1.00 each.

G.—ehrlei. This is also an improved Dbl. Baby's Breath, and very good. It is a trifle more erect in growth, and a little later flowering. Our plants are own root, field-grown stock, $1.00 each.

Helenium autumnale, tall, yellow. Fall flowering. Fine when massed.

Iris laevigata, Japanese Iris. Strong plants.

Liatris scariosa, the best of the Gayfeathers. The flowerheads are separate instead of in one long spike.

Lilium tigrinum, Tiger Lily. Very showy, easily grown.

Lupinus polyphyllus, mixed hybrids. Grown from the best seed obtainable. Large variety of shades, 35c each, $3.00 per 10.

L.—Blue, White, or Pink. Separate colors if preferred.

Papaver orientale. The common scarlet form.

P.—Mrs. Perry. Salmon pink 35c each, $3.00 per 10.

P.—Perry's White. White with maroon blotch, 35c each.

P.—Olympia. The new double Poppy. Scarlet, shaded salmon, 50c each.

P.—nudicaule. Iceland Poppy. We have the Coonara strain, with many pink shades.

Phlox decussata. The following are all standard:

Bridesmaid, white, rose-crimson eye.

B. Comte, brilliant French purple, tall and late, 35c each.

Frau G. Von Lassburg. Clear white, good size, midseason.

Jules Sandeau, pure pink, very large, early.

Paul Dutrie, apple blossom pink, fine.

Riverton Jewel, mauve rose, carmine red eye.

Rynstrom, Paul Neyron rose pink in color, very popular sort.

Phlox suffruticosa, Miss Lingard. An early white variety, blossoming before the other types.
Primula polyanthus. The old-fashioned "Polyanthus." A good mixed strain.
Sedum spectabile, Brilliant. Strong plants of this deep colored sort.
Statice latifolia, Sea Lavender. Fine foamy light blue flowers. Excellent for drying for Winter use.
Trollius europeus, Globe Flower, often called double Buttercup. Light lemon yellow, 35c each; $3.00 per 10.
T.—Orange Globe, seedlings. Like the above but somewhat deeper in color, 35c each; $3.00 per 10.
Veronica, Blue Ridge. A strong growing, large flowered sort.
V.—long ifolia subsessilis. Very popular.
V.—spicata. Fine for massing. Two feet.

BIENNIAL PLANTS

The common biennial plants are listed here. These do not flower more than once, and in order to get the finest blooms, they should be established early the Fall before.
Canterbury Bells. Pink, blue, and white, in single blooms. State color. 15c each; $1.00 per 10.
Foxgloves. White and pink, 15c each; $1.00 per 10. The Shirley strain, of giant hybrid Foxgloves. Strong plants at 20c each; $1.50 per 10.
Hollyhocks. Single and double mixed, also red, pink, yellow, and white double forms, all at 25c each; $2.00 per 10; $18.00 per 100.
Myosotis or **Forgetmenot.** A charming Spring flowering plant. 15c each; $1.00 per 10.
Pansies. The finest strain we can buy, all colors and ruffled sorts, 20 plants for $1.00; $4.00 per 100.
Sweet William. Mixed plants and Pink Beauty, 15c each; $1.00 per 10.

SMALL PERENNIAL SEEDLINGS

Many people like to maintain a Nursery to supply their gardens, and get much pleasure from doing so. However there are a number of Perennials that do not germinate readily, and many fail to get any at all. We have large quantities of these sorts coming on, and offer a few kinds at the following prices:
Dictamnus fraxinella and alba. The red and white Gas plants. Either color in strong seedlings at 10 plants for 50c.
Eremurus himalayicus and robustus. We can supply one-year old seedlings of these rare plants at 50c each. The roots are not large, about the size of a pencil, and several inches long. It will take at least two years before these will bloom. Plant in a cold frame, or a very dry protected spot.
Iris kaempferi. Japanese Iris seedlings in mixed colors at 10c each.

ROCKERY PLANTS

We are pleased to announce that we have recently purchased the complete stock of Rockery and other plants of **Eugene E. Palmer, North Ferrisburgh, Vt.** This is the collection referred to in our earlier lists. Mr. Palmer's grounds contained many rare items, a part of which we have already moved to our own fields. Below are listed such as are available in quantity.

To his former customers who will receive this list, we are glad to say that Mr. Palmer's health is much improved, but that he did not feel that he could continue his business. In selling us his rarest things he expressed confidence in our ability to grow them properly, and also his entire willingness to have us deal with customers whom he felt were personal friends. We trust we may soon fill the same place he held in your estimation, and ask that you give us an opportunity to do so.

All at 50c each; 3 for $1.00

Ajuga genevensis
Alyssum argenteum
Aster alpina
Arabis alpina fl. pl.
Allium, unnamed variety
Arenaria montana
Androsace lanuginosa
Corydalis lutea
C.—nobilis
C.—bulbosa
Dianthus arenaria
D.—granitus
D.—velenowski
Draba repens
Euphorbia polychroma
Gypsophila repens
Iris cristata
Lamium maculatum
Mazus rugosus
Micromeria croatica
Phlox divaricata, Blue
Pardanthus chiloensis
Polemonium reptans
Rudbeckia subtomentosa
Satureia alpina
Sedum anglicum
S.—lydium
S.—lydium glaucum
S.—sarmentosum
S.—sieboldi
Sempervivum arachnoideum
S.—triste
S.—shafta
Silene alpestris
Thymus serpyllum
Thymus serpyllum lanuginosus
Veronica incana
V.—rupestris
V.—repens
V.—allioni
Viola Hardy Russian
V.—gracilis
V.—pedata

DUTCH BULBS

These are planted in the Fall only, and are generally ready in September. They may be planted with safety until the ground freezes if given a slight covering of litter. We offer a carefully chosen list, moderate in prices, but including a few of the newer varieties.

Tulips—Single Early

	10	100
Belle Alliance, finest scarlet	70c	$6.00
Chrysolora, golden yellow	80	7.00
Cottage Maid, soft pink, suffused white	70	6.00
Lady Boreel, finest white	80	7.00
President Lincoln, light violet	80	7.00
Early mixed	50	4.00

Double Early

Couronne d'Or, Golden yellow	80	7.00
Murillo, best pink	60	5.00

Single May-Flowering

Grenadier, fiery orange scarlet	70	8.00
Inglescombe Pink, buff and salmon	60	5.00
Inglescombe Yellow, best yellow	60	5.00
Maiden's Blush, white edged pink	60	5.00

Parrot

Finest mixed	50	4.00

Darwin

City of Haarlem, extra fine scarlet	2.00	15.00
Clara Butt, soft salmon pink	50	4.00
Farnecombe Sanders, scarlet	50	4.00
Flamingo, shell pink	70	6.00
Pride of Haarlem, deep rosy red	50	4.00
Rev. Ewbank, heliotrope and lavender	60	5.00
White Queen, pale blush, fading white	70	6.00
Superb mixed	50	4.00

Breeders

Bronze Queen, buff and bronzy apricot	70	6.00
Yellow Perfection, bronze shaded yellow	70	6.00
Choice mixed	60	5.00

Lily Flowered

A class of very charming new tulips with petals turning out in semblance to a lily.

Alaska. Clear yellow 35c each; $3.00 per 10

Sirene. Lovely shade of deep pink, 10c each; 75c per 10

Tulip Species

We can furnish the following:

	each	10
Clusina, white	10c	$ .75
Fosteriana, brilliant red	$2.50	25.00
Greigi, orange scarlet	30c	2.50
Linifolia, brilliant scarlet, rockery	1.00	9.00
Primulina, pale yellow	30c	2.50
Suaveolens, orange red	50c	4.00
Violacea, early	75c	7.50

Narcissus

All Narcissi or Daffodils are now American grown. Prices are somewhat higher. Delivery subject to crop.

Single Medium Trumpet

	each	10
Barri conspicuus, yellow with scarlet cup	15c	$1.25
Incomparabilis Lucifer, white and orange scarlet	20	1.75
Leedsii Evangeline, white. Cup primrose yellow	20	1.75

Large Trumpet

Emperor, large yellow	20	1.75
Empress, white, yellow trumpet	20	1.75
Golden Spur, most popular yellow	15	1.00

Poets and Poetaz

Laurens Koster, pure white. Deep yellow cup, large	20	1.75
Juliet, pure white	20	1.75
Poeticus ornatus, pure white. Cup margined scarlet, fragrant	15	1.00

Jonquils

	each	10
Campernelle, fragrant golden yellow	15c	$1.25

Double Flowering

Van Sion, the famous Old Dutch Daffodil	15	1.00
Alba plena odorata (Double Poet or Gardenia daffodil) pure white, very fragrant	15	1.25

Hyacinths

All first size bulbs, 20c each, $1.50 per 10.

Single Yellow
Single White
Single Blue
Single Red
Single Pink
Single Rose

Crocus

	10	100
Large Yellow	30c	$2.50
Blue and Purple	30	2.00
Striped and Variegated	30	2.00
White	30	2.00
All colors mixed	25	2.00

Other Bulbs for Fall Planting

Chionodoxa luciliae, white and blue, Glory of the Snows	50	4.00
Eranthis hyemalis. Yellow flowers coming with the Snowdrops	75	5.00
Fritillania meleagris. Guinea Hen Flower Drooping bell-shaped flowers, very oddly marked or checkered in various colors. Mixed colors	80	6.00
Galanthus, single Snowdrops	60	5.00
Leucojum vernum, Spring Snowflake	80	6.00
Muscari, Grape Hyacinths. Heavenly Blue the finest variety	50	4.00
Scilla sibirica, Squills, blue or white	50	4.00

UNUSUAL BULB OFFERS

Camassia esculenta. The Camassia are among the finest native American bulbous plants. This sort is purple and grows as high as two feet in the best soils. Plant 3-4 inches deep in any good soil that is moist at flowering time.

70c per 10; $5.00 per 100

Camassia leichtlini is the giant of the family, and may grow to four feet, reminding one of an Eremurus. It comes in deep blue to light colors mixed, and is very fine. Plant both of these in colonies for best results. Perfectly hardy.

$1.25 per 10; $10.00 per 100

Crocus speciosus. The largest and showiest of the Autumn Crocus, with upright flowers, feathered and flaked rich blue and violet, the stigmas of intense vermilion. They flower in September and later. Plant under plants like Thyme or Veronica repens, about three inches deep.

$3.00 per 10; $20.00 per 100

Crocus sativus and **C. zonatus.**

$2.00 per 10; $15.00 per 100

Colchicum autumnale. This is the common autumn crocus. Lavender flowers in September and later. Fine for edge of paths. $3.00 per 10

C.—autumnale album. White form of the above. $3.50 per 10

C.—bornmulleri. Very large and early. Rosy lilac and one of the finest. 60c each; $5.00 per 10

Frittilaria imperialis is the old-fashioned Crown Imperial, sometimes called Skunk Lily. It is very showy, standing 3 feet high, and comes very early. 50c each; $4.00 per 10

Iris xiphium. Spanish Iris. These bulbous Iris are very fine for planting among low-growing Perennials. Perfectly hardy with us if protected slightly. Fine for cutting. Best in the garden if massed. We offer several fine named varieties.

Belle Chinoise. Rich deep yellow.
Cajanus. Clear primrose yellow.
Flora. White and light blue.
King of the Blues. Dark blue.
Snowball. Pure white.

Any of the above, 10c each; 80c per 10; $6.00 per 100
Mixed all colors, 60c per 10; $5.00 per 100

Lycoris squamigeri, sometimes called **Amaryllis halli.** This interesting plant makes a strong leafy growth in Spring, then dies down. In late midsummer a stem grows with great rapidity, and bears a cluster of showy pink flowers, which are very fine. Hardy with slight protection. $1.00 each

Narcissus Paper White. American grown bulbs of this variety, so popular for forcing in pebbles with water. We have forced these with fine success.

2 for 25c; 10 for $1.00

We offer a superior mixture of **Narcissus,** composed of many of the finest sorts. These are sure to please, and the price is moderate.

10 for $1.00; $9.00 per 100

We always have available mixed tulips and other bulbs. These are left in the field when digging and the names lost. To clear these we offer as a special inducement **one hundred bulbs for $5.00 postpaid anywhere.** This is not junk, but good value, to fill an odd corner.

EASTERN NATIVE PLANTS

We recommend that the following native plants be set in the Fall:

All at 25c each; $1.50 per 10; $12.00 per 100

Actea alba. White Baneberry
A.—rubra. Red Baneberry.
Aralia racemosa. Spikenard.
Anemonella thalictroides rue anemone.
Aquilegia canadensis. Columbine.
Arisæma triphyllum. Jack-in-the-Pulpit.
Campanula rotundifolia. Harebell.
Chimaphila maculata. Pipsissiwa.
Clintonia borealis.
Dentaria diphylla. Crinkle Root.
Dicentra cucullaria. Dutchman's Breeches.
D.—canadensis. Squirrel Corn.
Erythronium americanum. Trout Lily or Adders Tongue.
Gentiana andrewsi. Bottle Gentian.
Goodyera pubescens. Rattlesnake Plantain.
Hepatica triloba. Liverwort.
Iris versicolor. Blue Flag.
Lobelia cardinalis. Cardinal Flower.
Orchis spectabilis. Showy Orchis.
Polygala paucifolia. Fringed Polygala.
P.—senega. Seneca Snakeroot.
Pyrola elliptica. Shin Leaf.
Sanguinaria canadensis. Bloodroot.
Sarracenia purpurea. Pitcher Plant.

O.—regalis. Royal Fern.
Phegopteris dryopteris. Beech Fern.
P.—polypodioides.
Polypodium vulgare. Common polypody.
Woodsia ilvensis. Rusty Woodsia.
W.—obtusa.

Landscape Work

We are well fitted by experience to design and execute Landscape Plantings, and to arrange for their aftercare, and will gladly give details as to cost, without charge. In writing us, please state what is desired, and something of the location and soils. Photos are helpful.

Particularly to those who have their summer homes in the North, and to those whose all-year home it is, we offer our knowledge of what will grow and succeed in flowers, ornamentals and and fruits.

We can supply tools, furniture—as trellises and arbors—and anything else needed in the garden. Shipment is made from the nearest point, or from Shelburne, often resulting in considerable saving.

Fall Glories

Fall fills Vermont woods with color. Oak and Maple leaves, Bittersweet and other berries show against the varied greens of Spruce, Balsam and Pine.

Some of this Fall glory may be moved to your home. We collect and ship it in varied forms. A special circular will be sent on request. The finest sort of a holiday gift for an absent Vermonter.
